

## Microanalysis Society Topical Conference Electron-Probe Microanalysis 2016

May 16-19, 2016 at the University of Wisconsin-Madison, WI

<http://www.microprobe.org/topical-conferences/epma-2016-1/epma-2016>

- Registration is now open
- See website for full details
- Abstract deadline February 15, 2016
- MAS Early Career Scholar financial travel support
- Four-day intensive MAS topical conference
- User meetings with EPMA 2016 sponsors on Monday, May 16, 2016
- Three-day intensive topical conference, Tues-Thurs May 17-19, 2016
  - EPMA, SEM, WDS, EDS techniques
- Tutorial on EPMA and SEM quantitative analysis
- Topics with invited and contributed presentations
  - General electron-probe microanalysis: analysis, instrumentation, methods
  - Trace element EPMA: background methods, high-resolution EPMA
  - Advanced WDS and EDS techniques, Monte Carlo simulation, accuracy studies
  - Quantitative compositional mapping by EPMA
  - Cathodoluminescence
- Presentations and product information from the microanalysis vendor community
- Inexpensive housing options
- Group meals and discussion
- *Problems identified by the microanalysis community and solutions provided by the vendor community*
